LEDLUZ CO.,LTD
深圳市格丽照明有限公司

Aluminum LED Profile

公司简介 Company Introduction

LEDLUZ's Aluminum led profiles are the excellent option to take your led light strip installation to the next level. LEDLUZ offers a wide range of aluminum extrusion profiles, which enables architects, interior desingers, retailers and home improvement contractors to create amazing ligthing project. We have more than100kinds of aluminum led profile for your choice at present. And we prepare a lot of stock in warehouse, then we can make fast delivery within short time. Normally our stock is in 2m each pcs, for some popoular items in 2.5m. But we will custom made the length for your project if you need.

We keep making new design according to the feedback from the market, we also can custom made the design according to the drawing or sample which supplied by the customer.

Main components of Aluminum led profile lighging system:
1) Flexible LED strips or Rigid LED light bar
2) Aircraft Aluminum led profile(6063-T5)
3) PMMA cover (polymethyl methacrylate) or PC cover (polycarbonate)
4) LED driver

Application of Aluminum LED Profile
1) Main Lighging, such as in office, supermarket, shopping mall and facory etc.
2) Backlight or supplementary lighting
3) Lighting for special occasions
4) Also suitable for residential decoration lighting

Advantages of Aluminum LED Profile Ligting
Simple and fashion deisgn
Easy intallation, can be cut according to any length which you need
Low operating voltage, very safe, eco-friendly and energy efficient

LEDLUZ's advantage on the LED Profile
1), Stock for each item at any time
2), Free sample, NO MOQ problem,
3), Constant improvement to the old items, and also deign the new models
4),Custom made the length and color for the Aluminum, also supply special packing But with MOQ
